We offer a flat and beautiful building plot of 2,485 m², located in a quiet hamlet of the Barilovići municipality. The plot is located within a construction zone, and access is provided via a municipal field road.

All necessary amenities — a shop, a school and a family medicine clinic — are located within a 2 to 3 kilometer radius, which makes the location practical for everyday life.

In the immediate vicinity, about 50 meters away, there is a well-maintained swimming area and a beautiful waterfall of the Korana River, which further emphasizes the natural value and attractiveness of this property.

This plot is ideal for building a weekend house or holiday home in a natural and quiet environment.
