We are selling an apartment in a new residential complex in Štinjan. The complex consists of 19 residential two-story buildings. The location of the new residential complex is excellent, just one kilometer away from the center of Štinjan and in close proximity to an elementary school, a kindergarten, the city beach Hidrobaza, a pharmacy, and only four kilometers from the city center of Pula and three kilometers from the center of the settlement of Fažana.

Access to the residential complex is provided from an asphalted surface, within which all necessary infrastructure (electricity, water, sewage) will be available.

The apartment labeled 15A, with an internal area of 49.62 m², is located on the ground floor of the building and consists of: a hallway, a living room with a kitchen and dining area, 2 bedrooms, a bathroom, a storage room, and a garden.

What makes this project special is the architectural design of the facade of the residential buildings and the green roofs that appear on the facade.

Each residential unit is provided with the necessary number of parking spaces according to the urban plan of the city of Pula. Each parking space has been designed with a future connection to the electrical grid for the purpose of connecting chargers for electric vehicles.

This apartment comes with 1 parking space and a storage room included in the price.
