Energy efficiency :	A+
Year of construction :	2025

Price : 182.250 €

We are selling an apartment in a new residential complex in Štinjan. The complex consists of 19 two-story residential buildings. The location of the new residential complex is excellent, just one kilometer away from the center of Štinjan and in close proximity to an elementary school, kindergarten, the city beach Hidrobaza, a pharmacy, and only four kilometers from the center of the city of Pula and three kilometers from the center of the village of Fažana.

Access to the residential complex is ensured from an asphalted surface, within which all necessary infrastructure (electricity, water, sewage) will be located.

The apartment marked 10C is situated on the first floor of the building and consists of: a hallway, a living room with a kitchen and dining area, a bedroom, a bathroom, and a terrace.

What makes this project special is the architectural design of the facades of the residential buildings, as well as the green roofs that appear on the facade.

Each residential unit is allocated the required number of parking spaces according to the urban planning of the city of Pula, measuring 2.50m x 5.00m. Each parking space is designed for a future connection to the electrical grid with the aim of connecting chargers for electric vehicles.

This apartment comes with a storage room and one parking space - included in the price.
