Access to the residential complex is provided via an asphalted road, within which all necessary infrastructure (electricity, water, sewage) will be available.

The apartment labeled 14D is located on the second floor of the building and consists of: a hallway, a living room with a kitchen and dining area, 2 bedrooms, a bathroom, and a terrace.

What makes this project special is the architectural design of the facades of the residential buildings, as well as the green roofs that are featured on the facades.

Each residential unit is provided with the required number of parking spaces according to the urban plan of the city of Pula. Each parking space is designed for a future connection to the power grid for the purpose of connecting electric vehicle chargers.
