We are selling an apartment in a new residential complex in Štinjan. The complex consists of 19 two-story residential buildings. The location of the new residential complex is excellent, just one kilometer away from the center of Štinjan and in close proximity to an elementary school, kindergarten, the city beach Hidrobaza, a pharmacy, and only four kilometers from the center of the city of Pula and three kilometers from the center of the village of Fažana.

Access to the residential complex is provided from an asphalted surface, within which all necessary infrastructure (electricity, water, sewage) will be available.

The apartment labeled 15C is located on the first floor of the building and consists of: a hallway, a living room with a kitchen and dining area, a bedroom, a bathroom, and a loggia.

What makes this project special is the architectural design of the facades of the residential buildings and the green roofs that appear on the facade.

Each residential unit is provided with the necessary number of parking spaces according to the urban plan of the city of Pula. Each parking space is designed for a future connection to the electricity grid with the aim of connecting chargers for electric vehicles.

This apartment includes a storage room and one parking space - included in the price.
