A plot of 905 m² with a project for a semi-detached house is for sale. The application for a building permit has been submitted and is expected to be completed soon.

The plot is located in a popular tourist region of Croatia, just 15 minutes by car from the sea.

It is possible to buy the entire plot or just half of it.

 We also offer a complete project implementation cycle - from purchasing the plot to delivering the finished project on a turnkey basis. The investor does not need to organize contractors, control the construction or look for a management company - everything is under the control of an experienced team.
