Energy efficiency :	A+
Year of construction :	2025

Price : 237.937 €

We are selling an apartment in a new residential complex in Štinjano. The complex consists of 19 two-story residential buildings. The location of the new residential complex is excellent, just one kilometer from the center of Štinjano and in close proximity to an elementary school, a kindergarten, the city beach Hidrobaza, a pharmacy, as well as only four kilometers from the center of the city of Pula and three kilometers from the center of the village of Fažana.

Access to the residential complex is provided from an asphalted surface, which will include all necessary infrastructure (electricity, water, sewage).

The apartment is located on the ground floor of the building and consists of: a hallway, a living room with a kitchen and dining area, 2 bedrooms, a bathroom, a storage room, and a terrace.

What makes this project special is the architectural design of the facades of the residential buildings and the green roofs that appear on the facade.

Each residential unit is allocated the required number of parking spaces according to the urban planning of the city of Pula, measuring 2.50m x 5.00m. Each parking space is designed with a future connection to the electrical grid for the purpose of connecting electric vehicle chargers.

This apartment comes with a garden, an additional storage room, and 1 parking space included in the price.
