We are selling an apartment in a new residential complex in Štinjan. The complex consists of 19 two-story residential buildings. The location of the new residential complex is excellent, just one kilometer away from the center of Štinjan and in close proximity to an elementary school, a kindergarten, the city beach Hidrobaza, a pharmacy, as well as being only four kilometers from the center of the city of Pula and three kilometers from the center of the settlement of Fažana.

Access to the residential complex is provided via an asphalted surface, which will include all necessary infrastructure (electricity, water, sewage).

The apartment labeled 11B is located on the first floor of the building and consists of: a hallway, a living room with a kitchen and dining area, a bedroom, a bathroom, and a balcony.

What makes this project special is the architectural design of the façades of the residential buildings, as well as the green roofs that appear on the façades.

Each residential unit is allocated the required number of parking spaces according to the urban planning of the city of Pula. Each parking space is designed with a future connection to the electrical grid for the purpose of connecting chargers for electric vehicles.

This apartment includes a storage room and one parking space - included in the price.
