Gorski Kotar, Vrbovsko – 8,995 m² Commercial Forest with Good Access

A commercial forest with a total area of 8,995 m² is for sale in the Vrbovsko area.

The forest consists mainly of linden and hornbeam trees, while one of the property's main advantages is its good accessibility. A well-maintained and passable forest road leads to the property, and the access to the forest itself has been cleared and maintained, allowing easy access to the land.

With an area of almost 9,000 m² and its commercial purpose, this property is particularly interesting for buyers looking for forest land for long-term management and investment in forest resources.

The forest is situated in a peaceful natural environment characteristic of Gorski Kotar. A hunting stand is located nearby, further reflecting the woodland character of the area and the presence of wildlife.
