GORSKI KOTAR, LOKVE – Building Land of 1,080 m² in a Peaceful Location, Surrounded by Nature

We are offering for sale an attractive plot of land with a total area of 1,080 m², situated in a peaceful location in Lokve, surrounded by greenery and the natural beauty of Gorski Kotar.

Of the total land area, approximately 600 m² is located within the settlement's building zone, while the remaining portion lies outside the building zone. The land is situated in an undeveloped part of the settlement's building area, which should be taken into consideration when planning future construction.

The plot has a regular shape, a gentle slope, and access via an asphalt road. Surrounded by nature and greenery, it is located in a quiet part of the settlement, away from main roads, offering privacy and a pleasant environment throughout the year. At the same time, the location provides easy access to all essential amenities.

One of the key advantages of this property is its location, particularly considering the increasingly limited availability of building plots in the Lokve area.

Lokve is known for its natural surroundings, Lake Lokve, and numerous opportunities for recreation and outdoor activities. Thanks to its good transport connections and proximity to the Rijeka-Zagreb motorway, this area is attractive for both permanent residence and holiday use throughout the year.

This land represents an interesting opportunity for buyers looking for a plot in the natural surroundings of Gorski Kotar, offering peace, privacy, and good accessibility.

For further information or to arrange a viewing, please feel free to contact us.
